

At Yorkshire Village,

We provide the highest quality of care at every level.

YORKSHIRE
VILLAGE
- A Community that Cares -

Welcome to Yorkshire Village

At Yorkshire, we will help you find the best living plan designed for you or your loved one. Whether it's Memory Care, Assisted Living, Board and Care, Hospice Care and even Respite Care, we're committed to providing the highest quality of life.

OUR MISSION:

At Yorkshire Village,
we treat your family, like our family.

That is because our residents aren't just patients, customers, or names on a chart. They are part of the Yorkshire Village extended family. When we say family matters, it means we go above and beyond high-tech solutions and corporate playbooks. We try and succeed in providing happiness.

We start by treating our staff like family. We listen to their concerns, we respect their needs, and we always put people before profits.

Why? Because when we show our people we care about them, they extend that circle of care to your loved ones.

By looking out for one another, we build a community that cares for all of us, including your family. **That's what The Community That Cares** is all about.

There is always something going on to engage our residents. Our activities are thoughtfully crafted to ensure that each resident's interests and likes are being attended to.

Yorkshire Village:

Providing the highest quality of care at every level.

ASSISTED LIVING

Yorkshire Village is dedicated to making sure our residents feel as comfortable as possible. We want to help make them feel at home as soon as they move in. A resident's private space is theirs to decorate as they please. That is why we encourage our residents to bring their furniture, mementos, photos, and artwork and other meaningful items.

Our Assisted Living residents enjoy senior-friendly living spaces designed for comfort and safety, and is staffed 24/7 to assist with any care needs.

There are choices in just how much assistance each resident might need, whether its assistance with medications, bathing, or getting dressed.

MEMORY CARE

Fear and frustration is often associated with memory loss. Yorkshire Village is here always to listen and offer assistance. Memory Care at Yorkshire village includes specially designed living spaces and supportive environments for those who are living with cognitive challenges brought on by Alzheimer's and dementia.

We believe that no one should be defined by the symptoms of Alzheimer's and dementia. Maintaining a strong identity and a personal sense of self - comes from living a life filled with meaning, purpose, and contributions — Yorkshire Village recognizes that having dementia shouldn't change that. Our person-centered approach is focused on creating feelings of belonging and purpose for each resident.

Memory care at Yorkshire Village includes security features for individuals with mild to moderate dementia. With this level of assisted living, you'll have peace of mind knowing that qualified staff members are always on site to assist whenever needed, 24/7.

BOARD AND CARE

This provides the privacy and freedom of home living combined with the convenience and security of 24-hour on-call assistance, all in a virtually maintenance-free environment. Board and Care living is a rewarding living experience for seniors with able bodies and minds who still enjoy an active lifestyle.

Our Board and Care community also provides high-end amenities such as great dining, laundry services, and recreational programs.

RESPIRE CARE

Short-term stays are ideal for family caregivers who need a break from their duties for many different reasons. Perhaps you are going on vacation with the family and can't bring your senior loved one along. Maybe your work suddenly asks you to take a business trip to an out-of-state location. Other times, you may be feeling overwhelmed by your duties, and a respite stay can help you relax and avoid caregiver burnout.
